Jurisdiction - General Information

LATIPAT is not an authority issuing patents but a regional IP information platform.

LATIPAT provides an access point for searching public patent documents from Latin American countries and Spain using the Espacenet platform. It is a collaborative project initiated in 2003 between the Spanish Patent and Trademark Office (OEPM), the World Intellectual Property Office (WIPO) and the European Patent Office (EPO), in collaboration with the intellectual property offices of Argentina, the Plurinational State of Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, the Dominican Republic, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Spain, Uruguay, and the Bolivarian Republic of Venezuela.

Online Patent Register and Online Gazette

Even though an **Online Register** and an **Online Gazette** are not provided, a [bibliographic patent database](#) is available online where legal status information for patents of some member countries could be retrieved.

Features and search functionalities

The database can be searched on an **English, Spanish and Portuguese interface by Applicant/Inventor Name**, by **PCT Application/Publication Number**, and by **Priority Data**.

In some cases information about **Legal Status** is available, depending on the jurisdiction. It is also possible, for some jurisdictions, to retrieve information on **National Phase Entry** and **Fee Payment**.

Full Publications are available for a large number of patents.

With regard to **Supplementary Protection Certificates (SPCs)**, referral is made to national regulations.

Search tips

In some cases, basic **Legal Status** (e.g. grant) can be deduced from the bibliographic record or from the PDF copy. INPADOC legal status is available for some jurisdictions, see, e.g., "REFUSAL" for publication no. PE20040372.

Fee Payment information is available occasionally, mostly in the case of non-payment, e.g. "LAPSE AS NO EVIDENCE OF PAYMENT OF THE ANNUAL FEE" for publication no. BR0313457.
